SUBJECT INDEX

Acetic acid: phosphatic fossils (53)
Acutichiton pannuceus: new species, Polyplacophora (48)
Adectorhynchidae: new family, Brachiopoda (44)
Adectorhynchus: new genus, Brachiopoda (44)
Alabama: Ammonoidea, Pennsylvanian (45); Graptolithina, Ordovician (33)
Alaska: Conodonta, Pennsylvanian (95); Gastropoda, Ordovician (90); Ostracoda, Neogene (35); Trilobita, Pennsylvanian (41)
Alberta: Cephalopoda, Jurassic (42)
Algae: Jurassic, England (117)
Ammonoidea: Carboniferous biostratigraphy, evolution (84); Pennsylvanian, Alabama (45); Triassic, Israel (82)
Amphibia: Pennsylvanian, Arizona (106), Georgia (96); Permian, Texas (80); Triassic, Australia (109)
Amphisbaenia: Paleogene, New Mexico (103)
Annelida: Devonian, Ohio (121), (122); Paleozoic, North America (71)
Anoplia belenensis: new species, Brachiopoda (83)
Appalachian Basin, Gastropoda, Pennsylvanian (2), (49); Sphenophyllales, Pennsylvanian (88)
Arctic: Brachiopoda, Devonian (55), (56); Conodonta, Cambrian, Ordovician (79); Eurypterida, Silurian (54); Trilobita, Devonian (125)
Arizona: Amphibia, Pennsylvanian (106); microfossils, Precambrian (12)
Arizonerpeton wellsi: new genus and new species, Amphibia (106)
Arkansas: Brachiopoda, Mississippian (44); Mammalia, Paleogene (113); trace fossils, Cretaceous (14)
Artiodactyla: Neogene (51); Paleogene, North America (91)
Aseptonetes? isaacsoni: new species, Brachiopoda (83)
Astropolichnus: new genus, trace fossils (23)
Atlantic Coastal Plain: Brachiopoda, Paleogene (30)
Atops granulatus: new species, Trilobita (81)
Australia: Amphibia, Triassic (109); Brachiopoda, Devonian (40), Silurian (102); dinosaurs, Cretaceous (76); Marsupialia, Neogene (3); Nautiloidea, Ordovician (101)
Aysheaia prolata: new species, Onychophora (89)
Babinia parvula: new genus and new species, Brachiopoda (83)
Bellerophontacea: Triassic, survey (124)
Bikocrinus baios: new genus and new species, Crinoidea (4)
Bioherms: Silurian, New York, Ontario (15)
Biostratigraphy: Ammonoidea, Carboniferous (84), Triassic (82); Conodonta, Cambrian (79), Devonian (60), Ordovician (79); Paleogene, Gulf of Mexico, Gulf Coast (59)
Bivalvia: Cretaceous, Israel (69); Jurassic (107); Neogene, Kansas (75); Permian, China (120), Malaysia (119); primitive life habits (105); Triassic, China (120)
Blastoidea: Mississippian, North America (110), Pennsylvanian, North America (110); taxonomic survivorship (50).
Bolivia: Brachiopoda, Devonian, Silurian (83)
Borings: Bivalvia, Cretaceous, Israel (69)
Brachiopoda: Cambrian, Utah (93); Devonian, Arctic (55), (56), Australia (40), Bolivia (83); measurement (31); Mississippian, Arkansas, Oklahoma (44); Paleogene, Atlantic Coastal Plain (30); Silurian, Australia (102), Bolivia (83)
Brachymetopus pseudometopina: Pennsylvanian, Alaska (41)
British Columbia: Rugosa, Mississippian, Pennsylvanian, Permian (118); Trilobita, Cambrian (114)
Bryograptus kjerulfi orientalis: new subspecies, Graptolithina (21)
Bryozoa: Ordovician, Tennessee (58)
Cambrian: Brachiopoda, Utah (93); coelobionts, Virginia (61); Conodonta, Arctic (79); Gastropoda, Missouri (123); Onychophora, Utah (89); trace fossils, Newfoundland (23); Trilobita, British Columbia (114), Poland (81); tubular fossils, Mexico (73)
Carboniferous: Ammonoidea (84)
Carbonitacea: new superfamily, Ostracoda (99)
Carbonitidae: new family, Ostracoda (99)
Caribbean: Ostracoda, Neogene (13)
Carnivora: Neogene, North America (7)
Chile: Echinoidea, Cretaceous (65), Jurassic (66)
China: Bivalvia, Permian, Triassic (120); Gastropoda, Triassic (124); Graptolithina, Ordovician (21), Permian (26)

Choristodera: Paleogene, France (98)
Coelobionts: Cambrian, Virginia (61)
Colapterochiton decorus: new genus and new species, Polyplacophora (47)
Colorado: Crustacea, Cretaceous (8); Mosasauridae, Cretaceous (62); Reptilia, Paleogene (46)
Conodonta: (104); Cambrian, Arctic (79); Devonian, Northwest Territories (60); Mississippian, evolution (20); Ordovician, Arctic (79); Pennsylvanian, Alaska (95); techniques (53), (74)
Cretaceous: Bivalvia, Israel (69); Crustacea, Colorado (8), Mississippi (10), South Dakota (9); dinosaurs, Australia (76), Utah (25); Echinoidea, Chile (65); Mammalia (37); Mosasauridae, Colorado (62); Pterosauria, Georgia (97); trace fossils, Arkansas (14), Utah (39)
Crinoidea: Devonian, Missouri (63); Mississippian, feeding strategies (57), Ireland, New Mexico, Tennessee (64); Silurian, New York (15), Ohio (4), Ontario (15)
Crocodylia: Paleogene, Colorado (46)
Crustacea: Cretaceous, Colorado (8), Mississippi (10), South Dakota (9); Devonian, Ohio (112)
Cystoidea: Ordovician, Oklahoma (100); Silurian, New York, Ontario (15)
Davidsoniacea: Mississippian, Arkansas, Oklahoma (44)
Devonian: Annelida, Ohio (121), (122); Brachiopoda, Arctic (55), (56), Australia (40), Bolivia (83); Conodonta, Northwest Territories (60); Crinoidea, Missouri (63); Crustacea, Ohio (112); Dipnoi, Nevada (85); paleoecology, Indiana (111); Placodermi, Iowa (27); Stromatoporoidea, Ohio (11); Trilobita, Arctic (125), Pennsylvania (18), Soviet Union (125)
Dibranchiata: Jurassic, Alberta (42)
Dinosaurs: Cretaceous, Australia (76), Utah (25); Haversian bone (86)
Dioratiopus hearttailensis: new species, Crustacea (9)
Dipnoi: Devonian, Nevada (85)
Discoaster orbis: new name, Coccolithophyceae (87)
Drepanoistodus (?) *pervetus:* new species, Conodonta (79)
Echinoidea: Cretaceous, Chile (65); Jurassic, Chile (66)
Eisenackitina turgifunda: new name, Chitinozoa (32)
Elachychiton juxtaterminus: new genus and new species, Polyplacophora (47)
Ekaltadeta ima: new genus and new species, Marsupialia (3)
Elfridia bulbidens: new genus and new species, Amphibia (106)
Elphidiidae: taxonomy (19)
England: Algae, Jurassic (117)
Enhydritherium terraenovae: new genus and new species, Carnivora (7)
Eomunidopsis cobbani: new species, Crustacea (8)
Eoschuchertella tuktui: new species, Brachiopoda (55)
Euleptochiton torus: new genus and new species, Polyplacophora (47)
Eurypterida: Silurian, Arctic (54)
Evolution (72); Ammonoidea, Carboniferous (84); Blastoidea (110); Brachiopoda, Cambrian (93); Conodonta, Mississippian (20); Radiolaria, Neogene (67)
Feeding strategies: Crinoidea, Mississippian (57)
Foraminiferida: Neogene, Japan (78), North America (19), Pacific Ocean (43); Paleogene, Gulf of Mexico, Gulf Coast (59)
France: Choristodera, Paleogene (98)
Gastropoda: Cambrian, Missouri (123); Neogene, Kansas (75), Oregon (22); Ordovician, Alaska (90); Pennsylvanian, Appalachian Basin (2), (49); Triassic, China (123)
Georgia: trace fossils, Pennsylvanian (96); Pterosauria, Cretaceous (97)
Glyptocrinacea: revision (4)
Gorbyoceras settlementense: new species, Nautiloidea (101)
Graptolithina: lithofacies controls (68); Ordovician, Alabama (33), China (21); Permian, China (26)
Gulf Coast: Foraminiferida, Paleogene (59)
Gulf of Mexico: Foraminiferida, Paleogene (59); Ostracoda, Neogene (13)
Haversian bone: dinosaurs (86)
Heavy mineral separations: (24)
Heinia howei: new genus and new species, Ostracoda (13)
Hemiaster wayensis: new species, Echinoidea (65)
Heritschioididae: new family, Rugosa (94)
Hoploparia mickelsoni: new species, Crustacea (9)
Hormosiroidea canadensis: new species, trace fossils (23)
Hydrochemistry: Ostracoda, estuarine (35)
Idaho: Rugosa, Pennsylvanian (94)
Idiognathoides pacificus: new species, Conodonta (95)
Illinois: paleoecology, Pennsylvanian (5)

Indiana: Devonian, paleoecology (111)
Insectivora: Paleogene, New Mexico (115)
Interfacial separation techniques: (74)
Iowa: Placodermi, Devonian (27); Receptaculitaphyceae, Ordovician (77)
Ireland: Crinoidea, Mississippian (64)
Israel: Ammonoidea, Triassic (82); Bivalvia, Cretaceous (69)
Japan: Foraminiferida, Neogene (78)
Jurassic: Algae, England (117); Bivalvia (107); Dibranchiata, Alberta (42); Echinoidea, Chile (66)
Kansas: Bivalvia, Gastropoda, Neogene (75)
Krokolithus wilsoni: new genus and new species, Crocodylia (46)
Lepospondyli: Pennsylvanian, Arizona (106)
Limnocythere bradburyi: new species, Ostracoda (34)
Malaysia: Bivalvia, Permian (119)
Mammalia: Cretaceous (37); Neogene (51), Australia (3), North America (7); Paleogene, Arkansas (113), New Mexico (115), North America (91)
Marsupialia; Neogene, Australia (3)
Mazon Creek biota: (5)
Melanocyrillium fimbriatum: new species, microfossils incertae sedis (12)
Melanocyrillium hexodiadema: new species, microfossils incertae sedis (12)
Melanocyrillium horodyskii: new species, microfossils incertae sedis (12)
Mexico: Ostracoda, Neogene (34); tubular fossils, Cambrian (73)
Michelinoceratida: Ordovician, Australia (101)
Microfossils incertae sedis: Precambrian, Arizona (12)
Mississippi: Crustacea, Cretaceous (10)
Mississippian: Blastoidea, North America (110); Brachiopoda, Arkansas, Oklahoma (44); Conodonta, Evolution (20); Crinoidea, feeding strategies (57), Ireland, New Mexico, Tennessee (64); Ostracoda, Virginia, West Virginia (99); Pteridospermatophyta, Pennsylvania (52); Rugosa, British Columbia (118)
Missouri: Crinoidea, Devonian (63); Gastropoda, Cambrian (122)
Morphology: dinosaurs (86)
Mosasauridae: Cretaceous, Colorado (62)
Nautiloidea: Ordovician, Australia (101), Ohio (38)
Necrocarcinus davisi: new species, Crustacea (9)
Nemagraptus linmassiae: new species, Graptolithina (33)
Neogene: Bivalvia, Kansas (75); Carnivora, North America (7); Foraminiferida, Japan (78), North America (19), Pacific Ocean (43); Gastropoda, Kansas (75), Oregon (22); Mammalia (51); Marsupialia, Australia (3); Ostracoda, Alaska (35), Caribbean, Gulf of Mexico (13), Mexico (34); Radiolaria, evolution (67); Scleractinia (36)
Nevada: Dipnoi, Devonian (85)
New Mexico: Amphisbaenia, Paleogene (103); Crinoidea, Mississippian (64); Insectivora, Paleogene (115)
New York: Crinoidea, Silurian (15); Cystoidea, Silurian (15)
Nisusia sulcata: evolutionary significance (93)
North America: Artiodactyla, Paleogene (91); Blastoidea, Mississippian, Pennsylvanian (110); Carnivora, Neogene (7); Foraminiferida, Neogene (19); Polyplacophora, Pennsylvanian (47)
Northwest Territories: Conodonta, Devonian (60)
Ohio: Annelida, Devonian (121), (122); Crinoidea, Silurian (4); Crustacea, Devonian (112); Nautiloidea, Ordovician (38); Ostracoda, Pennsylvanian (17); Stromatoporoidea, Devonian (11)
Oklahoma: Brachiopoda, Mississippian (44); Cystoidea, Ordovician (100)
Oleneothyris subfragilis: replacement name, Brachiopoda (30)
Ontario: Crinoidea, Silurian (15); Cystoidea, Silurian (15)
Ontogeny: Blastoidea (110)
Onychophora: Cambrian, Utah (89)
Ophiderpeton swisshelmense: new species, Amphibia (106)
Ordovician: Bryozoa, Tennessee (58); Conodonta, Arctic (79); Cystoidea, Oklahoma (100); Gastropoda, Alaska (90); Graptolithina, Alabama (33), China (21); Nautiloidea, Australia (101), Ohio (38); Receptaculitaphycae, Iowa (77)
Oregon: Gastropoda, Neogene (22)
Orthonema amissidecoris: new species, Gastropoda (2)
Orthonema ascensus: new species, Gastropoda (2)
Orthonema chorda: new species, Gastropoda (2)
Orthonema semiornamenta: new species, Gastropoda (2)

Orthotetacea: Mississippian, Arkansas, Oklahoma (44)
Orthotetes stenopsis: new species, Brachiopoda (44)
Ossification: Therapsida (108)
Ostracoda: Mississippian, Virginia, West Virginia (99); Neogene, Alaska (35), Caribbean, Gulf of Mexico (13), Mexico (34); Pennsylvanian, Ohio (17)
Ozarkodina dissimilis: new species, Conodonta (60)
Ozarkodina postera: new species, Conodonta (60)
Pacific Ocean: Foraminiferida, Neogene (43)
Paiderocrinus asketos: new species, Crinoidea (4)
Paiderocrinus ochthos: new species, Crinoidea (4)
Paleobiogeography: Ammonoidea, Israel (82); Trilobita, Cambrian (81)
Paleoclimatology, Ostracoda, Neogene (34)
Paleoecology: Ammonoidea, Israel (82); Brachiopoda, Devonian (56); Crustacea, Devonian (112); Devonian, Indiana (111); Foraminiferida, Neogene (43); Graptolithina (68); Mollusca, Oregon (22); Ostracoda, Pennsylvanian (17); Pennsylvanian, Illinois (5); Precambrian–Cambrian, Newfoundland (23); Silurian, New York, Ontario (15); Stromatoporoidea, Devonian (11); trace fossils, Cretaceous (14)
Paleogene: Amphisbaenia, New Mexico (103); Artiodactyla, North America (91); Brachiopoda, Atlantic Coastal Plain (30); Choristodera, France (98); Foraminiferida, Gulf Coast, Gulf of Mexico (59); Insectivora, New Mexico (115); Mammalia, Arkansas (113); Reptilia, Colorado (46); trace fossils, Texas (116)
Paleozoic; trace fossils (15)
Palynomorphs: Silurian, Québec (28)
Paraheritschioides complexa: new species, Rugosa (94)
Paraheritschioides grandis: new species, Rugosa (94)
Parapavona major: new genus and new species, Rugosa (118)
Pennsylvania: Trilobita, Devonian (18); Pteridospermatophyta, Mississippian (52)
Pennsylvanian: Ammonoidea, Alabama (45); Amphibia, Arizona (106); Blastoidea, North America (110); Conodonta, Alaska (95); Gastropoda, Appalachian Basin (2), (49); Ostracoda, Ohio (17); paleoecology, Illinois (5); Polyplacophora, North America (47), Texas (48); Rugosa, British Columbia (118), Idaho (94); Sphenophyllales, Appalachian Basin (88); trace fossils, Georgia (96); Trilobita, Alaska (41)
Pentremites: ontogeny, phylogeny (110)
Permartella quadrata: new genus and new species, Bivalvia (119)
Permian: Bivalvia, China (120), Malaysia (119); Graptolithina, China (26); Rugosa, British Columbia (118); Temnospondyli, Texas (80)
Permo-Triassic boundary: China (120)
Pernopecten malaysia: new species, Bivalvia (119)
Phlegethontia phanerhapha: new species, Amphibia (106)
Phosphatic fossils: techniques (53), (74)
Phrygilocrinus batheri: new genus and new species, Crinoidea (4)
Phycodes coronatum: new species, trace fossils (23)
Placodermi: Devonian, Iowa (27)
Plagiobatrachus australis: new genus and new species, Amphibia (109)
Plagiosauroidea: Triassic, Australia (109)
Plesiorhineura tsentasi: new genus and new species, Amphisbaenia (103)
Pleurocystites toddi: new species, Cystoidea (100)
Poland: Trilobita, Cambrian (81)
Polygnathus aequalis: new species, Conodonta (60)
Polygnathus brevicarina: new species, Conodonta (60)
Polygnathus elegantulus: new species, Conodonta (60)
Polygnathus evidens: new species, Condonta (60)
Polygnathus gracilis: new species, Conodonta (60)
Polygnathus imparilis: new species, Conodonta (60)
Polygnathus morgani: new species, Conodonta (60)
Polygnathus planarius: new species, Conodonta (60)
Polygnathus robustus: new species, Conodonta (60)
Polygnathus samueli: new species, Conodonta (60)
Polyplacophora: Pennsylvanian, North America (47), Texas (48)
Precambrian: microfossils incertae sedis, Arizona (12); trace fossils, Newfoundland (23)
Predation: Gastropoda, Neogene (22)
Prehapatus harrisi: new species, Crustacea (10)

Propleopus wellingtonensis: new species, Marsupialia (3)
Prospondylus chintongia: new species, Bivalvia (119)
Protocallianassa russelli: new species, Crustacea (9)
Pseudocryptaenia? majewskei: new species, Gastropoda (90)
Pseudozygopleura (Pseudozygopleura) angusta: new species, Gastropoda (49)
Pseudozygopleura (Pseudozygopleura) baltea: new species, Gastropoda (49)
Pseudozygopleura (Pseudozygopleura) cirrita: new species, Gastropoda (49)
Pseudozygopleura (Pseudozygopleura) eximia: new species, Gastropoda (49)
Pseudozygopleura (Pseudozygopleura) irrugata: new species, Gastropoda (49)
Pseudozygopleura (Pseudozygopleura) pinquicula: new species, Gastropoda (49)
Pseudozygopleura (Pseudozygopleura) variegata: new species, Gastropoda (49)
Pteridospermatophyta: Mississippian, Pennsylvania (52)
Pterocanium charybdeum allium: new subspecies, Radiolaria (67)
Pterosauria: Cretaceous, Georgia (97)
Pterostrophia carinata: new genus and new species, Brachiopoda (40)
Ptyctodopsis menzeli: new genus and new species, Placodermi (27)
?Ptyonius olisthmonaias: new species, Amphibia (106)
Pygurus (Pygurus) andinus: new species, Echinoidea (66)
Quadrikentron havliceki: new species, Brachiopoda (83)
Quadrikentron iclaense: new species, Brachiopoda (83)
Québec: palynomorphs, Silurian (28)
Radiolaria: Neogene, evolution (67)
Receptaculitaphyceae: Ordovician, Iowa (77)
Reptilia: Cretaceous, Colorado (62), Georgia (97); eggs (46); Paleogene, Colorado (46), France (98), New Mexico (103); Triassic (108)
Rugafarius fredrichi: new genus and new species, Crustacea (9)
Rugosa: Mississippian, British Columbia (118); Pennsylvanian, British Columbia (118), Idaho (94); Permian, British Columbia (118)
Ruminantia: Neogene (51)
Rusophycus avalonensis: new species, trace fossils (23)
Scleractinia: Neogene, variation within colonies (36)
Seasonal banding: Algae, Jurassic (117)
Sentistrobus goodii: new genus and new species, Sphenophyllales (88)
Sinotubulites cienegensis: new species, incertae sedis (73)
Silurian: Brachiopoda, Australia (102), Bolivia (83); Crinoidea, New York (15), Ohio (4), Ontario (15); Cystoidea, New York, Ontario (15); Eurypterida, Arctic (54); palynomorphs, Québec (28)
South Dakota: Crustacea, Cretaceous (9)
Soviet Union: Trilobita, Devonian (125)
Sphenophyllales: Pennsylvanian, Appalachian Basin (88)
Sphenothallus: Paleozoic, North America (71)
Standardoceras burretti: new genus and new species, Nautiloidea (101)
Statistical analysis: Foraminiferida (43), Scleractinia (36)
Stromatoporoidea: Devonian, Ohio (11)
Survivorship: Blastoidea (50)
Symmetrodonta: classification (37)
Taphonomy: skulls (1)
Taphrognathus alaskensis: new species, Conodonta (95)
Techniques: color slide preparation (70); heavy mineral separation (24); measurement of Brachiopoda (31); phosphatic fossils, acetic acid (53), separation (74)
Temnospondyli: Permian, Texas (80)
Tennessee: Bryozoa, Ordovician (58); Crinoidea, Mississippian (64)
Teridontus gracillimus: new species, Conodonta (79)
Terranovia gratsianovae: new species, Trilobita (125)
Texas: Polyplacophora, Pennsylvanian (48); Temnospondyli, Permian (80); trace fossils, Paleogene (116)
Therapsida: Triassic (108)
Theropoda: Cretaceous, Utah (25)
Trace fossils: Cretaceous, Arkansas (14), Utah (39); Paleogene, Texas (116); Paleozoic (15); Pennsylvanian, Georgia (96); Precambrian, Newfoundland (23)
Tremichnus cysticus: new species, trace fossils (15)
Tremichnus minutus: new species, trace fossils (15)
Tremichnus paraboloides: new species, trace fossils (15)

Tremichnus puteolus: new species, trace fossils (15)
Triassic: Ammonoidea, Israel (82); Amphibia, Australia (109); Bivalvia, China (120); Gastropoda, China (124); Therapsida (108)
Triograptus linearis: new species, Graptolithina (21)
Trilobita: Cambrian, British Columbia (114), Poland (81); Devonian, Arctic (125), Pennsylvania (18), Soviet Union (125); Pennsylvanian, Alaska (41); soft-bodied, Cambrian (114)
Trimerus stelmophorus: new species, Trilobita (18)
Trochonemella churkini: new species, Gastropoda (90)
Tubular fossils, Cambrian, Mexico (73)
Typanocrinus strombos: new genus and new species, Crinoidea (4)
Unconformities: Paleogene, Gulf Coast, Gulf of Mexico (59)
Utah: Brachiopoda, Cambrian (93); dinosaurs, Cretaceous (25); Onychophora, Cambrian (89); trace fossils, Cretaceous (39)
Vagrania amaroki: new species, Brachiopoda (55)
Variation: Scleractinia, Neogene (36)
Virginia: coelobionts, Cambrian (61); Ostracoda, Mississippian (99)
West Virginia: Ostracoda, Mississippian (99)
Xanthosia elegans occidentalis: new subspecies, Crustacea (9)
Zirocrinus litos: new genus and new species, Crinoidea (4)

Volume 59 of THE JOURNAL OF PALEONTOLOGY was mailed on the following dates:

No. 1—January 7, 1985
No. 2—April 10, 1985
No. 3—May 13, 1985
No. 4—July 12, 1985
No. 5—August 13, 1985
No. 6—November 14, 1985
